## Features

### Read SMS'es

Read the latest SMS'es from your phone and send them to your email.

### Remote control alarm

Have you ever misplaced your phone which was put on silent mode? Now you may sound the alarm on your phone from your PC!

### View on map

Find the location of your phone on a map. With AndroidLost you can find your phone with GPS precision. Even if the phone is indoor you will get a nearby location by network accuracy.

### Send SMS'es from your PC

You can send SMS'es directly from your phone by typing them on AndroidLost. All replies will still go to your phone.
